Michele,

I received the following report from the SC Forestry Commission for the Pine Hope Plantation (Henry Brown) site. The AOC required a report when the work had been completed and I believe that this satisfies the requirement (it is strange that the state provided this but it seems to meet the requirement outlined in the AOC). Do you agree? If so, I think that is all we need to close this matter. Please let me know and I will put closing this case on my list of things to do.

Thank you,
Chris
